This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INTERIOR DEPARTMENT.

DEPARTMENT OF THE INTERIOR,
Washington, February 23, 1906.

Hon. JAMES A. TAWNEY,
Chairman Committee on Appropriations,
House of Representatives.

DEAR SIR: In compliance with your request of yesterday, I send you a statement of the number of employees of this Department who are 65 years or more of age, with the aggregate amount of their salaries. To aid you in a fuller comprehension of the problem, they have been arranged by bureaus or offices, and have been divided so as to show separately those of clerical or higher grades, and those of subclerical grades.

A calculation will show that the average salary of those in the clerical and higher grades is $1,428, those in the subclerical grades $700. It is also noticeable that the total of 431 persons is about 10 per cent of the entire force, and that more than half of these, or nearly 7 per cent, are in the Pension Office. It is well known that the latter Bureau employs a large number of worthy men who were soldiers in the civil war, and whom from every point of view it is proper to treat with indulgence, but I beg leave to repeat what I said to your committee, that it is customary in the Pension Office, as in the other bureaus of this Department, when employees are found unable, through physical or other incapacity to render adequate service, to reduce them to a grade of salary which is believed to be not greater than they can fairly earn.

Thus deserving clerks are at the same time utilized and provided for in their declining days without injustice to the Government. I am not aware that any employees of this Department are permitted to be appreciably overpaid for any great length of time.

Submitting the above to your thoughtful attention, I have the honor to be,

Very respectfully, E. A. HITCHCOCK,
Secretary.

DEPARTMENT OF COMMERCE AND LABOR,
OFFICE OF THE SECRETARY,
Washington, February 24, 1906.

DEAR SIR: Referring to my letter of the 23d instant, transmitting to you, in accordance with your request, a statement showing by bureaus the number, names, dates of birth, ages, sex, rates of compensation, and length of service of employees of this Department serving in Washington, D. C., who are 65 years of age or over, I now have the honor to inclose herewith a statement containing similar information concerning employees in the service of this Department outside of the District of Columbia who have reached the age of 65 years.

The statement I sent you yesterday shows that there are 61 such persons serving in the District of Columbia, whose annual salaries aggregate $77,310. The statement herewith shows that outside of the District of Columbia there are 262 such persons, receiving salaries aggregating $245,558.28, making a grand total for the whole Department of 323 such persons, receiving aggregate annual salaries of $322,868.28.

It will be observed that more than half of the employees of this Department who are 65 years of age or over (namely, 169), are employed in the Light-House Service, a large proportion of them serving as keepers of light-houses. These employees receive annual salaries aggregating $135,752.75.

For the sake of convenience and in order to avoid the necessity for explanatory references and notes, all per diem salaries included in this statement have been multiplied by 365 to get the annual rate of compensation. The result is that the figures given show rather what may be paid during the year than what is actually paid.

Yours, very truly,

V. H. METCALF, *Secretary.*

Hon. JAMES A. TAWNEY,
Chairman Committee on Appropriations,
House of Representatives.

INTERSTATE COMMERCE COMMISSION.

INTERSTATE COMMERCE COMMISSION,
OFFICE OF THE SECRETARY,
Washington, March 3, 1906.

Hon. JAMES A. TAWNEY,
Chairman Committee on Appropriations,
House of Representatives, Washington, D. C.

DEAR MR. CHAIRMAN: Your favor of February 21, asking for a statement showing the number of employees in the Commission over 65 years of age and the aggregate amount of their annual compensation, was promptly received, but owing to the tremendous pressure of work to which we have been subjected on account of the rate bill it has not received the immediate attention it should.

A memorandum is inclosed herewith showing that the Commission has five men in its employ of the specified age and over, whose aggregate compensation is $5,940 per annum. All of these employees are men of vigor and perform good service. One of them is a messenger, the other four are clerks. Mr. Robb is a veteran of the civil war, and Mr. Kendall was formerly a member of Congress. Their age does not in any sense debar them from doing their work properly and efficiently; in other words, their salary is not a pension.

Very truly, yours,

EDW. A. MOSELEY, *Secretary.*

I am, sir, very respectfully, yours,

GOVERNMENT PRINTING OFFICE.

GOVERNMENT PRINTING OFFICE,
OFFICE OF THE PUBLIC PRINTER,
Washington, D. C., February 24, 1906.

DEAR SIR: Replying to your letter of February 22, 1906, requesting a statement of the aggregate amount of annual compensation now being paid to employees in the Government Printing Office who have

reached the age of 65 and over, I have the honor to furnish the following information, the amounts quoted being what these several employees earn during the year if they work the maximum time of eight hours per day.

As with few exceptions the rate of pay of the above-named employees is fixed by the hour, it should be understood that they do not always make the maximum, while on the other hand, under the law, if they work extra hours or at night they are compensated at a higher rate per hour, and consequently in the year earn more than the amount set opposite their respective names.

Respectfully,

CHAS. A. STILLINGS, *Public Printer.*

Hon. J. A. TAWNEY,
Chairman Committee on Appropriations,
House of Representatives, Washington, D. C.

OCTOBER 10, 1905.

Dr. LLEWELLYN JORDAN,
Office of the Secretary of the Treasury,
Washington, D. C.

SIR: I am in receipt of your letter of October 6, requesting information as to the number of original appointments upon certification, the number of reinstatements, and the number brought in by extension of classification in the service in the District of Columbia in the fiscal year ended June 30, 1905.

In reply, there is inclosed a table giving the desired information. With reference to your inquiry as to the character of these appointments, reinstatements, and extensions by classification, it may be stated that approximately 25 per cent of appointments through examination, and probably the same per cent of the reinstatements, were positions the salaries of which were $900 or over. The percentage of positions paying $900 or over affected by extensions of classification is very small, and may be disregarded.

Yours, very sincerely, A. T. DOYLE.

SEPTEMBER 14, 1905.

Dr. LLEWELLYN JORDAN,
Treasury Department, Washington, D. C.

SIR: The Commission is in receipt of your letter of the 13th instant, addressed to its Secretary, in which you ask for official information as to the approximate number of persons who are now embraced in the classified civil service, including the isthmian canal employees and those in the forestry service.

The latest statistics compiled by the Commission regarding the extent of the service show the number of persons in the executive civil service on June 30, 1904, and will be found on pages 338 and 339 of its Twenty-first Annual Report. According to those statistics the

number of competitive positions on that date was 154,093. The number of excepted and noncompetitive positions was 80,798. The number of unclassified positions was 49,764, and the total number of positions of all classes was 290,858.

The increase in the number of classified positions over the figures shown in the table, due to appointments in the isthmian canal service, is about 1,500. The increase in the number of competitive positions in the forestry service by the classification of that service is about 350. This latter item does not indicate growth of the entire service, and should be deducted from the unclassified total.

It will be noted that the increase in competitive positions during the fiscal year ended June 30, 1904, was over 18,000, due principally to the growth of the rural free-delivery service. The increase during the fiscal year ended June 30, 1905, is not yet known to the Commission.

In relation to the status of the employees of the Government Printing Office and in the navy-yards, you are informed that they are classified under the terms of the rules, and are so regarded by the Commission. The manner of compensation has nothing to do with the status of Government employees, as appears from the following definition contained in civil-service Rule II, section 1:

"The classified service shall include all officers and employees in the executive civil service of the United States, heretofore or hereafter appointed or employed, in positions now existing or hereafter to be created, of whatever function or designation, whether compensated by a fixed salary or otherwise, except persons employed merely as laborers and persons whose appointments are subject to confirmation by the Senate."

Very respectfully,

F. M. KIGGINS,
Chief Examiner.
